Data Analyst | ETL | Data Visualization | Python | Tableau | SQL | Financial Sector

Experienced data analyst with a strong background in process optimization and business intelligence within the financial sector.

Worked directly on the development of strategic dashboards for the executive board of the largest bank in Brazil, focusing on process streamlining and operational efficiency.

Proficient in tools such as Tableau, Alteryx, SQL, Excel, and Python (pandas, numpy, scikit-learn). Fluent in English, with international experience and a strong technical learning capacity.

Available for immediate start.

PROFESSIONAL EXPERIENCE

Itaú Unibanco – Data Analyst

Mar/2023 – Apr/2024

- Developed ETL pipelines to standardize data in Data Lake environments and automate management dashboards (Tableau, Alteryx).
- Created strategic and tactical dashboards to monitor profits and reduce workload for commercial teams, reported to the Operations Board.
- Performed performance data analysis and identified inconsistencies in pipelines, ensuring the accuracy and reliability of KPIs.
- Prototyped and delivered a profit analysis dashboard in just one month, handling the entire process from concept to stakeholder validation.

Itaú Unibanco – Process Engineer

Sep/2022 – Mar/2023

- Conducted process mapping and indicator analysis to identify bottlenecks in production workflows.
- Collaborated with cross-functional teams to implement improvements based on data-driven decisions and Lean Six Sigma methodology.

Mindbeat – Front-end Developer

Sep/2021 – Sep/2022

- Built responsive interfaces in JavaScript within a Ruby on Rails environment for pharmaceutical clients (Pfizer, AstraZeneca, Novartis).
- Identified and resolved bugs, implemented new features with a focus on usability and performance.

HIGHLIGHTED PROJECTS

- **Customer profile analysis in loyalty program** – SQL, Tableau, Python, Jupyter Notebooks
Data cleaning, standardization, and creation of descriptive statistical modeling of user profiles in a loyalty program, analyzing their recent activity.
- **Strategic Dashboard for Corporate Projects** – Alteryx, Tableau, Excel, SAS
Tracked progress and financial impact of efficiency initiatives in corporate banking workflows.
- **SLA Monitoring Dashboard** – SQL Server, Tableau, JSON, Excel
Created and maintained project-level SLA indicators from data ingestion to visualization.
- **Process Adherence Dashboard for Corporate Accounts** – Tableau, Alteryx
Tactical monitoring of adherence to new operational processes in the corporate accounts segment.

TECHNICAL SKILLS

Languages & Tools:

Python, SQL, Excel, Tableau, Alteryx, SAS, Access, Data Lake, Data Mesh

Methodologies:

Agile Scrum, Kanban, Git & GitHub, Lean Six Sigma (White Belt)

Languages:

Fluent in English and Portuguese

EDUCATION

Predictiva Analytics – Data Analytics Course

Jul/2025 – Jul/2026

Itaú Unibanco – Process Engineering Bootcamp

Sep/2022 – Nov/2022

IGTI – Data Analyst Bootcamp

May/2020 – Jul/2020

FATEC Campinas – Bachelor's in Systems Analysis and Development

Jan/2017 – Dec/2019
